Zone 1B	Situated west of Sunnyridge, on the northern side of the Harbour Arterial Road and to the east of the Breezyvale Distributor Road, with access off the Breezyvale Distributor Road slightly north of the traffic circle at the western end of the Harbour Arterial Road.
Zone 1C	Situated south-west of Sunnyridge, on the northern side of the Harbour Arterial Road, with access off the Harbour Arterial, opposite the IDZ Transportation Building.
Zone 1D	Situated between Sunnyridge and the airport, on the south of Settlers Way, and accessed from Millard road.
HQ	Situated on the west side of lower Chester Road Sunnyridge

2.2.1.5 Temporary Works

The provision of any temporary works of whatever nature, required for execution of the scheduled items, shall be the responsibility of the Contractor, and the cost thereof shall be included in the rates for the respective items of work.

2.2.2 **DRAWINGS**

2.2.2.1 Drawings will be issued at award stage to the successful tenderer

2.2.3 **PROCUREMENT**

2.2.3.1 Preferential Procurement Procedures

The ELIDZ Procurement Handbook is included in envelope "A" of the tender submission and must be completed in full

2.2.3.2 Subcontracting

As stipulated in the General Conditions of Contract, the Contractor shall not subcontract any part of the contract without the prior written consent of the Employer. Accordingly, the Contractor shall submit his list of proposed subcontractors to the Employer or his representative for approval, prior to commencement of any activities on site.

2.2.4 MAINTENANCE WORKS

2.2.4.1 Works Specifications

The standard specifications applicable to this contract are the following **South African Bureau of Standards Standard Specifications**:

Act No. 85 of 1993	The Machinery & Occupational Health and Safety Act
SANS 10142-1	The wiring of premises Part 1: Low-voltage installations*
SANS 10400	The Application of the National Building Regulations*

The additional and particular Specifications applicable to this contract are:

ELIDZ Occupational Health and Safety Specification
ELIDZ Construction Environment Management Plan

These specifications are bound in with the tender documentation.

2.2.4.2 SCHEDULED MAINTENANCE WORK

The lists below describe in detailed the required schedule maintenance.

a) Log Books & Attendance Register

The Contractor will be required to compile/maintain a log book for the duration of the project and all staff carrying out any work activity on site, will be required to complete the attendance register in the control room and advise the overseeing of activities being performed.

b) Record keeping

A record shall be kept of each inspection and test in a book kept:

- at the Admin Building in the Engineer's office

The record book shall state at least the following:

- List of all equipment inspected
- The date and name of the person and company carrying out the services / tests / inspections
- Comments on the tests or inspections.

The Contractor shall also keep an updated duplicate of each log book at its own premises

c) Equipment and components removed

The contractor shall compile an inventory of all equipment and components that are removed during a replacement action. The inventory shall also indicate which equipment is still usable and is retained by the Contractor for future use in this contract.

d) Routine maintenance requirements

The work to be undertaken entails the provision of monthly maintenance services of the CCTV equipment within the ELIDZ.

The services defined are based on the current understanding of the requirements and strategic and business objectives of the Employer. It therefore follows that, as the need arises, the services may be amended (by agreement between the parties) to ensure that it at all times reflect the realities of the relationship between the Employer and the Contractor.

The service responsibilities stipulated shall not be construed as an exhaustive list and the Contractor shall be required to provide additional services or to comply with ancillary responsibilities to the extent that this may be required for the effective compliance with the stipulated responsibilities and to ensure that the Premises are serviced during Service Hours.

e) Unscheduled requirements

Unscheduled works will include Emergency, Urgent, and Routine response to requirements not included in the Routine maintenance requirements, and the replacement of equipment and components as listed in the BOQ. Provisional Sums have been included in the Bill to cater for such eventualities

2.2.5 Existing Services

All areas within which the Contractor is required to undertake maintenance operations are serviced with the full range of civil, electrical and communication services, most of which are below ground. The Contractor will be issued with drawings showing the positions of the services that are included in the contract and will be required to determine the position of all other known services which may be affected by his work, by consultation with the Employer or his representative.

The Contractor may be required to undertake work in close proximity to existing services in which case he shall take all necessary precautions to prevent any damage to these services. Should his operations result in any damage to existing services, he shall immediately notify the Employer or his representative who will inspect the damage and determine what further action is required. The Contractor shall be responsible for the cost of all repairs or reinstatement necessary, whether these are carried out with his own resources or by a third party.

2.2.6 Site establishment

a) Facilities provided by the Employer

The ELIDZ will provide, free of charge suitable office and workshop accommodation.

Reticulated potable water exists within each zone of the ELIDZ. Should the contractor require a supply of water to enable him to undertake any of his activities on the site then a suitable point of supply will be made available off the relevant reticulation. The contractor shall be responsible of removal and reinstatement on completion.

All zones of the ELIDZ are fully reticulated with electricity. Should the contractor require an electrical connection the he shall discuss his requirements with the engineer who will arrange for a supply with necessary capacity at a suitable position. The contractor shall be responsible for the cost of removal and reinstatement on completion.

Arrangements will be made for the contractor's staff to use the ablution facilities available on the site provided that they are kept in a clean condition and the contractor takes responsibility for breakages caused by his employees.

The employer is not able to assist with telecommunication facilities and the contractor shall make his own arrangements for whatever telephone and facsimile facilities he may require

b) Facilities provided by the Contractor

Should establishment of any temporary facilities be required to enable the Contractor to carry out any aspect of the work, then the location, cost, and extent of such facilities shall require prior approval of the Employer or his representative.

The Contractor will not be required to provide an office, telephone, vehicle or any other facilities or equipment for the exclusive use of the Employer, the Employer or his representative or their staff.

c) Notice Boards

A notice board is not required, nor will the Contractor be permitted to erect his own advertising board.

2.2.7 Site Usage

The Contractor shall restrict his operations to the immediate vicinity of the work being carried out and he shall not be permitted to unnecessarily obstruct or impact on other adjacent areas.

2.2.8 Permits and Way Leaves

Permits and way leaves are not required for horticultural work on the IDZ, but accurate records must be kept of all work done

2.2.9 Alterations, Additions, and Extensions to Existing Works

Wherever the Contractor is required to carry out new works tying into existing infrastructure, he shall first check that the information provided for the existing works is accurate and correct. Should there be any discrepancies as regards position, or defects in the quality of the existing work which may affect the proposed work, then the Contractor shall report these to the Employer or his representative and request clarification prior to proceeding with the new construction.

2.2.10 Management of the Works

a) Planning and Programming

Within 14 days of the Commencement Date and prior to commencement of any operations on site, the Contractor shall prepare and submit to the Employer or his representative a Maintenance Plan that provides full details of the sequence and timing of the scheduled inspections and maintenance activities required in terms of the contract. This shall cover the entire contract period, and shall be amended and revised as necessary until approved by the Employer or his representative.

In addition, one week before the end of each month, the Contractor shall submit a list of work to be carried out during the following month, together with the anticipated expenditure, using the relevant items from the Bills of Quantities. The list shall include both scheduled maintenance items and unscheduled additional work items as requested by the Employer or his representative, and shall form the basis of the work to be carried out and paid for during the month. The Contractor shall not be entitled to claim for payment for scheduled items that have not been included in the monthly schedule and approved by the Employer or his representative.

b) Sequence of the Works

The sequence of work shall be carried out strictly in accordance with the maintenance plan and monthly schedule as detailed above.

Certain other aspects of unscheduled work may be required from time to time in response to call-outs. The response to any call-out shall be categorised according to the need for urgency in attending to the call-out.

The applicable categories of call-out are defined as follows:

i) Emergency Response: This shall be defined as an event that requires an immediate response or action to prevent and/or mitigate against damage, harm or injury to persons or property, or to limit the disruption of services. The Contractor shall respond to an emergency call-out within 2 hours.

ii) Urgent Response: This shall mean any failure or repair requirement that could significantly affect the services or pose a danger if left unattended for any length of time. The Contractor shall respond to an urgent call-out within 24 hours.

iii) Routine Response: This shall apply to all other failures or repairs other than those requiring either an emergency or urgent response. These items shall be dealt with as unscheduled additional work items as requested by the Engineer (refer to a) above).

All items of work shall be categorised as routine.

Items will however be included in the Bill of Quantities to allow for additional payment in the event that the Engineer requires either an urgent or emergency response to a specific aspect of unscheduled work.

c) **Methods and Procedures**

Prior to the commencement of any work on the site the Contractor shall submit method statements for each separate maintenance, repair or construction activity that he is required to undertake. The method statements shall be submitted to the Employer or his representative for approval at least 10 days prior to the scheduled start of the activity. The method statements shall set out the procedures to be followed in carrying out the activity and shall include details of compliance with both Occupational Health and Safety and Environmental aspects.

The Contractor shall ensure that his staff and workers are properly trained in the safe and effective use of any equipment, plant or materials necessary to undertake the work.

d) **Quality Control**

The Contractor shall ensure that the appearance of his staff is neat and tidy, and he shall provide them with appropriate and easily identifiable uniforms, preferably with the Contractor's logo, to enable them to be recognised at all times while on site.

The Contractor shall provide whatever samples of materials are required for approval prior to commencement, and shall undertake all necessary tests that are required in terms of the applicable specification to ensure that his workmanship meets the required standard.

e) **Environment**

Environmental considerations applicable to this project are detailed in the ELIDZ Construction Environment Management Plan (CEMP).

The Contractor shall ensure that he is fully aware of the requirements of the CEMP and that he understands his responsibilities regarding both his management of the project and the actual construction activities on site.

f) **Accommodation of Traffic**

The Contractor shall be responsible for the safety of all vehicular and pedestrian traffic affected by his work and shall provide the necessary deviations together with all warning signs, barricading and lighting fully in compliance with the requirements of the SADC Road Traffic Signs Manual.

The Contractor shall maintain access to all buildings and properties affected by his work and shall liaise with the relevant tenants and the IDZ to agree temporary or partial closure of any access point.

g) **Other Contractors**

Various other maintenance activities and construction contracts will be underway concurrently with this contract. The Contractor may be required to co-ordinate his activities together with the activities of the other contractors, and shall be notified of specific requirements by the Employer or his representative.

h) **Testing, Completion, Commissioning**

Each separate maintenance, repair or construction activity included in the contract shall be fully tested and independently commissioned on completion, and shall immediately thereafter be made available for use by the ELIDZ or the relevant tenant.

i) **Communications**

All communication of whatever nature shall be through the Project Manager or the ELIDZ Project Manager. All communication will be confirmed in writing within seven days, preferably via email, with supporting documentation, reports and or photos

j) **Key Personnel**

Within 14 days of the Commencement Date and prior to commencement of any operations on site, the Contractor shall submit to the Employer or his representative detailed CV's of his key personnel together with their relevant contact details. Should the key personnel not be the same as those included in the tender submission, then the Contractor shall be required to provide personnel with equivalent or better qualifications and experience.

k) **Management Meetings**

The Contractor shall be required to attend a monthly meeting and inspection of work done and in progress during which all aspects relating to the progress, scope, expenditure, OHS and general administration of the contract will be discussed. The Contractor shall ensure that his representative at the meeting has the necessary understanding and authority to make decisions regarding these issues. Contractor shall submit a written report at the meeting for review and comment

l) **Payments**

All payments to the Contractor shall be by means of electronic transfer and the Contractor shall provide his banking details to the Employer or his representative together with the initial payment claim. Monthly claims will be valued by the Project Manager and submitted to employer for payment within 30 days of receiving a corresponding original VAT invoice and statement

m) **Records**

The Contractor shall be required to provide a detailed report at the end of every month on a word document in both hard and electronic format. The monthly report shall be in a format to be agreed with the Employer and the Project Manager and shall contain the following:

- Results of all routine inspections carried out.
- A record of the routine maintenance activities undertaken.
- Details of repair work done
- Proof of additional/specialist work completed
- A monthly/Daily record of resources (both personnel and equipment) utilised on site.
- Incident report and actions taken
- Compliance to OHS and CEMP documents
- ELIDZ labour returns

The report shall be submitted within seven days of the end of each month, and no payment will be made to the Contractor until the report has been received.

In addition the contractor shall submit a brief report on each item of unscheduled repair work that he is required to carry out.

The report shall be submitted within seven days of completion of the unscheduled item of work, and no payment will be made to the contractor until the report has been received.

n) **Payment Certificates**

After an audit has been carried out by the Project Manager, a payment Certificate shall be drawn up in an agreed format based on the bills of quantities and any variation orders authorised. The date for submission of each payment claim shall be agreed with the Employer or his representative. The procedure for preparation of Payment Certificates shall be as follows:

- The actual quantity for each item shall be agreed with the Engineer based on the cumulative total of the previous monthly quantity and the additional work carried out during the month.
- The Contractor shall draw up and submit his claim using the agreed quantities.
- The Engineer shall check the claim and certify the amount to be paid.
- The Contractor shall provide a VAT invoice to the Engineer for the certified amount.
- The Engineer shall submit the claim, the VAT invoice and the payment certificate to the Employer.

o) **Permits**

The Contractor is required to obtain identity tags and access cards issued free of charge by the ELIDZ for all his staff that enter the site. He shall make prior arrangements with the ELIDZ to obtain the tags timeously, as no member of his staff shall be allowed on site without the identity tag clearly displayed.

p) **Proof of Compliance with the Law**

The Contractor shall be required to comply with all regulations and laws of whatever nature that are applicable to his operations throughout the duration of the contract, and

shall produce documentary evidence when requested for all aspects, including, but not limited to:

- Valid proof of registration with the Compensation Commissioner.
- Proof of registration for income tax and VAT.
- Compliance with the Occupational Health and Safety Act and Construction Regulations.

2.2.11 Health and Safety Requirements and Procedures

The Contractor shall comply with all relevant aspects of the Occupational Health and Safety Act together with the Regulations referred to therein, as applicable to the scope of his activities.

Particular attention must be paid to the issuing of the relevant Notices, appointment of responsible people, undertaking Hazard Identification and Risk Assessments, and preparation of a Health and Safety Plan within 21 days of appointment for comment and approval. All necessary documentation shall be prepared and submitted for comment and approval prior to commencement with any work on site.

Specific Health and Safety considerations applicable to this project are detailed in the ELIDZ Occupational Health and Safety Specification. (Appendix A)

Method statements submitted for the Contractor's maintenance activities shall include details of compliance with Occupational Health and Safety within 21 days of appointment for comment and approval.

The Contractor shall ensure that all his personnel are properly inducted with respect to the ELIDZ Occupational Health and Safety standards prior to their undertaking any work within the IDZ premises.

The Contractor shall provide the necessary personal protective equipment and clothing to all staff as necessary for the type of work being carried out.

No member of the Contractor's staff shall be allowed on site while under the influence of alcohol or drugs. Any member of his staff that exhibits any signs of alcohol or drug usage shall be removed from the ELIDZ premises by security staff.

The Contractor shall be responsible for the protection of the public in the areas in which he is working and shall provide barricades and lighting as necessary to ensure their safety. He shall also be responsible for the safe control of traffic wherever his works impact on the existing roadways.

2.2.12 Environmental Management Plan (EMP) Requirements and Procedures

The Contractor shall comply with all relevant aspects of the ELIDZ Construction Environmental Management Plan (CEMP) together with the Regulations referred to therein, as applicable to the scope of his activities.

The ELIDZ CEMP is attached as Appendix B

Particular attention must be paid to the issuing of the relevant Notices, appointment of responsible people, undertaking Environmental Risk Assessments, and preparation of Method Statements for comment and approval prior to commencement with any work on site.

The Contractor shall ensure that all his personnel are properly inducted with respect to the ELIDZ CEMP standards prior to their undertaking any work within the IDZ premises.

2.3 SITE INFORMATION

2.3.1 Existing Services

2.3.2 Existing Buildings

2.3.3 Environmental Restrictions

2.3 **SITE INFORMATION**

2.3.1 **EXISTING SERVICES**

All areas within which the Contractor is required to undertake maintenance operations are serviced with the full range of civil, electrical and communication services, most of which are below ground. He will be required to determine the position of all other known services which may be affected by his work, by consultation with the Employer or his representative.

2.3.2 **EXISTING BUILDINGS**

Numerous buildings exist within the area in which the Contractor is required to undertake maintenance operations. Should the Contractor require drawings of any existing building to enable him to undertake his activities on site, then he shall request these from the Employer or his representative, who will make the necessary arrangements with the ELIDZ or other consultants for the provision of the record drawings for these buildings.

2.3.3 **ENVIRONMENTAL RESTRICTIONS**

Certain areas within the ELIDZ have been designated as “Environmentally sensitive areas”. Drawings indicating the location and extent of these areas can be obtained by request. Under no circumstances shall the Contractor enter or use these areas for any purpose whatsoever, without the specific written approval of the Employer or his representative.
