EOI for the Development of Prototypes for ELIDZ SOC

Section 2: EOI SCOPE OF REQUIREMENTS

1 INTRODUCTION

The Science and Technology Park (STP) component of the East London Industrial Development Zone (ELIDZ) was established to contribute towards the ELIDZ's strategic goal of providing a globally competitive location. This was to assist in increasing the competitive and comparative advantages of the zone as an investment destination through the utilisation of industrial development and innovation.

In order to realise this strategic goal, the STP has been mandated to deliver on the strategic objectives of qualifying 13 industrial development and innovation opportunities for market exploitation in the period of 2015/16 – 2019/20.

Pertinent here from this goal is the ability to create an enabling environment that will ensure the effective and efficient development of prototypes and technology demonstrators, which will create a pipeline for small enterprises to locate in the zone, to essentially incubate them.

A critical output of the strategy therefore is to produce prototypes, which will demonstrate the capability of the STP to generate solutions to technological challenges facing the province and the ELIDZ, and provide traction for future investment and development. The project started with two prototypes in 2015/16, Twerly and Heat raider, which have successfully been developed. The two prototypes are being further tested to assess their market and commercial viability. The last financial year, 2018/19, saw one more innovator completing the development of their prototype, namely, Impiloyethu Biometric Application System. There are a total of seven prototypes that have been completed to date.

2 BACKGROUND

The project aims to attract and incubate entrepreneurs, who will develop their prototypes. The aim is of creating a "project pipeline" of potential future investors. It is envisaged that these entrepreneurs will locate within the STP, and once their prototypes have the appropriate level of maturity and require a manufacturing plant, be "spun out" into the ELIDZ as manufacturing entities.

The requirement is for the establishment of capability to produce prototypes that will assist Innovators to demonstrate their innovations to potential investors in order to proceed to the testing or industrial production of these prototypes.

3 KEY OBJECTIVES OF THIS EOI PROCESS

The STP is seeking suitably qualified innovators, small enterprises and entrepreneurs to respond to this Expression of Interest – EOI, for the development of prototypes.

The focus of the prototype development should be aligned to the ELIDZ Strategic focus sectors, which are:

- Automotive,
- Renewable Energy,
- Aquaculture,
- Agro-Processing,
- Pharmaceuticals,
- ICT and

- General Manufacturing.

Therefore, proposals that are directed towards these Industry Sectors will be considered.

These below will be the fundable activities for this initiative:

- Initial proof of concept,
- Business Plan Development,
- IP Development,
- Prototype development and evaluating prototypes against customer requirements,
- Detailed primary market research

This EOI will lead to a Request for Proposal (RFP) issued to eligible respondents from the EOIs submitted.

4 FINANCIAL CONTRIBUTIONS

East London IDZ Science & Technology Park has allocated total funding of R1, 000, 000, 00 for prototypes development within this 2019/20 financial year.

Costs, if any, will be for each Respondent's own account.

ELIDZ reserves the right to invite certain Respondents to present or otherwise demonstrate their proposed solution as per their EOI, at the Respondent's own cost.

9 AUTHORITY OF SIGNATORY

- 9.1 If the EOI Respondent is a company, a certified copy of the resolution of the Board of Directors (i.e. personally signed by the Chairman or Secretary of the Board) authorising the person who signs this EOI to do so and any other documents and correspondence in connection with this EOI and/or agreement on behalf of the company, must be submitted with their EOI.
