## SUPPORTING PRICE SCHEDULE

### EAST LONDON INDUSTRIAL DEVELOPMENT ZONE

| Cost for year 1                             | Cost for year 2 | Cost for year 3 |  |
|---|-----------------|-----------------|--|
|   |                 |                 |  |
| Cost for 3 years (year 1 + year 2 + year 3) |                 |                 |  |
| VAT   |                 |                 |  |
| Total cost for 3 years + VAT                |                 |                 |  |

Please note the following:

1. The total cost for the three years + VAT must be calculated by adding the total cost for (year 1 + year 2 + year 3) + VAT
2. Annual inflation related escalation must be considered when calculating the total cost per year for year 2 and for year 3. This means that:
  - a. The cost for year 2 = (cost for year 1 + percentage annual inflation related escalation)
  - b. The cost for year 3 = (cost for year 2 + percentage annual inflation related escalation)
3. When calculating the costs for year 2 & 3 consideration must be given to the fact that no bins will be procured in year 2 & year 3.

Please further note that if the Grand Total Price in Supporting Price Schedule is not the same as the one in the Tender Proposal Price Schedule, only the amount that is written in words in the Tender Proposal Price Schedule will be considered. Please include a detailed price schedule within this response as an annexure.
