FOR THE MAINTENANCE, SUPPLY AND INSTALLATION OF FIBRE AND NETWORK  
SERVICES FOR  
THE EAST LONDON INDUSTRIAL DEVELOPMENT ZONE SOC LTD

## 1 EVALUATION CRITERIA AND COMMERCIAL EQUITY GOALS

The East London Industrial Development Zone (ELIDZ) supports national transformation goals and strives to target its procurement to create opportunities for Historically Disadvantaged suppliers and service providers. In awarding this tender, preference will be given to companies with a better rating in terms of contributions towards Broad Based Black Economic Empowerment (BBBEE).

The “tender” will be evaluated in accordance with the ELIDZ Procurement Policy using the 80/20 rule i.e. 80 of evaluation points will be based on price competitiveness and 20 will be based on BBBEE status. The following formula is used:

Calculation of the points for Price:

$$Ps = R \times \left[ 1 - \frac{Pt - Pmin}{Pmin} \right]$$

Where:

Ps = Points scored for price of tender under consideration

R = Percentage of the price

Pt = Rand value of tender under consideration

Pmin = Rand value of lowest acceptable tender

R must be up to a maximum of 80

Score Breakdown:

Price (R) = 80 points

BBBEE = 20 points

A maximum of twenty (20) points will be awarded to a tenderer for achieving BBBEE objectives.

Preference points shall be awarded on the basis of a B-BBEE verification certificate issued by an accredited Verification Agency.

Tenderers are required to submit a Valid original or certified B-BBEE Certificate. Failure to submit a valid B-BBEE certificate will result in zero points being awarded for preference.

The following table shall be used to convert the contribution level as per B-BBEE certificate into points.

Table: B-BBEE Points Conversion

Level Contribution	B-BBEE Score	Points Conversion 20
Level 1	>100%	20
Level 2	85~100%	18
Level 3	75~85%	14
Level 4	65~75%	12
Level 5	55~65%	8
Level 6	45~55%	6
Level 7	40~45%	4
Level 8	30~40%	2
Non-Compliant	0~30%	0

Companies with annual turnover less than R10million (Exempted Micro Enterprises or EME’s) are automatically awarded a level 4 contributor status, unless the EME is Black Owned (more than 50% black ownership), in which case the enterprise will have a level 2 contributor status. EME which is 100% black owned qualifies for a level 1 contributor. In awarding the EME status, the ELIDZ shall accept a letter from an accounting firm or SARS confirming a company’s turnover as less than R10m as well as a sworn affidavit confirming annual turnover and level of black ownership. B-BBEE certificates issued by non-accredited verification agencies will not be accepted as valid proof of a company’s B-BBEE status.

No points will be awarded for achieving B-BBEE objectives if the total percentage scored for B-BBEE is less than 30%. All tenders with functionality less than 70% of the total functional requirements will not be considered for the next stage of tender evaluation. Proposals with the total price exceeding the project estimate by 30% will not be considered.

The tender will be awarded to the bid with the highest number of points. A tender may be awarded to a bidder that did not score the highest number of points if reasonable and justifiable grounds exist.

Any contract offered by the ELIDZ will be based on the correctness of information submitted by the service providers. Any misrepresentation of facts by a service provider may lead to disqualification. Should such misrepresentation be uncovered after the commencement of the contracted work, the ELIDZ reserves the right to terminate the contract and recover all payments made to that service provider and any costs that may have been incurred in the process.

ELIDZ reserves the right to have the tenderer’s Black Economic Empowerment Credentials verified by an independent agency. (Procurement Handbook – Annexure: 1 must be fully completed and supplementary information may be completed by service providers with a turnover of less than R10m and be accompanied by letter from an accounting firm or SARS confirming the company’s or sworn affidavit turnover is less than R10m).

## 3. Detailed Requirements

### 3.1. Objective

The ELIDZ has in excess of 120km of fiber located in its zones. Most of this fiber was installed 15 years ago and needs maintenance, replacement, repairs and new installations. As construction is ongoing, new installations and unplanned damages are inevitable, we aim to mitigate the impact and response times required to restore and light up new services with this project.

We have adopted blown fiber for all new projects within the zone and your proposal will need to support all blown fiber standards for installation and repairs. Both 12/10mm and 14/10mm needs to be supported, but our preference and focus will be for the new standard of 14/10mm for micro ducting.

The aim of this tender is to appoint a service provider with the capability to supply, install and repair / maintain the fiber network. To this end we have provided a bill of materials that will assist building the proposals for each activity that is required.

### 3.2. Engagement Process

There will be two (2) engagement processes, (1) Planned work and (2) Emergency work. Planned work will have the scope and bill of quantities approved prior to work commencing. Emergency work will require the work to commence as soon as possible and an after-action report will define the scope and material that was required to repair the services.

This project has two (2) contingency values defined. All work will fall under the Maintenance contingency except for civil work which has its own value defined.

### 3.3. Response Times

The successful service provider is required to have all equipment, tools and measuring gear available and ensure all measuring equipment is certified, serviced and 100% operational. The successful service provider will need to ensure they have a team that is able to respond 24h of the day for emergencies that require such a response.

Response times and priorities are defined in the tables below.

#### Priority Table:

Priority	MTTA	MTTR
1	2 hours	8 hours
2	2 hours	12hours
3	2 hours	24 hours

4	4 hours	48 hours
5	4 hours	72 hours

**Priority Matrix:**

		IMPACT		
		HIGH	MID	LOW
URGENCY	HIGH	1	2	3
	MID	2	3	4
	LOW	3	4	5

**MTTA** - Mean time to Acknowledge. The time allocated to acknowledge the incident.

**MTTR** - Mean time to resolve. The time allocated to restore the services to an operational state.

**Impact** of the incident is the measure of how business critical it is. Impact is usually directly proportional to a number of users influenced by the incident.

**Urgency** is a necessary speed of resolving an incident.

**3.4. Civil Works**

Any civil work required will be managed via the contingency set aside for civil work. All appointments of civil contractors will be done by the service provider and will conform to the Preferential Procurement Policy Framework Act (PPFA).

The scope for civil work will be defined by both parties
