ES/21/SCADA/MIGRATION/01	PROPOSAL FOR MIGRATION OF ELIDZ SCADA SYSTEM UPGRADE	4EB/4EP	10 December 2021 at 12h00

The following is the summarized scope of work:

The Services include the following summarized scope of work:

1.1 Assess Technological Options

The service provider shall be expected to consider and make proposal on the integration for SCADA upgrade with elements that shall include but not limited to the following:

- 1.1.1. Consider global best practice case studies of similar upgrades.
- 1.1.2. Consider options for replacing hardware and software in terms of implementation costs and technical feasibility.
- 1.1.3. Assess the energy consumption and general operation conditions and make decisions to optimize the energy and water usage at these points.
- 1.1.4. Provide meaningful system reporting that's aligned to the ELIDZ ICT and facility & maintenance requirements.
- 1.1.5. Ensure that the installed BECMS is properly hardened against malicious attacks in accordance to IEC62443.

1.2 System migration

- 1.2.1 Assess the existing SCADA system to affirm the scope of works for the upgrade to the latest Adriot system using an on premise solution.
- 1.2.2 Perform a risk analysis of the migration of the SCADA system.
- 1.2.3 Devise detailed operational and implementation plan to ensure the BCEMS system transposition provide minimal disruption to the ELIDZ daily operations.
- 1.2.4 Procure the Adriot system with licenses registered on the ELIDZ company name.
- 1.2.5 Inform the ELIDZ representative of any outage requirements in advance where the outage is deemed necessary.
- 1.2.6 Evaluate the list of devices that are currently not on the SCADA to ensure its connected onto the new SCADA system.
- 1.2.7 The service provider is to ensure that the relevant building automation and control systems standards are adhered relevant to ISO, SANS and/or IEC standards.
- 1.2.8 The project shall result in reduction in the ELIDZ's energy usage and operational costs.

1.3 Training and organizational handover

- 1.3.1 Develop system documentation that includes standards, technical manuals, technical procedure, repair documents and technical policies for the newly installed system.
- 1.3.1 Develop an ELIDZ standards guideline that will suit the ELIDZ operational needs for the BCEMS System.
- 1.3.2 Provide skills transfer during the system installation to the ELIDZ personnel's and subsequently when the system is completely installed. This includes the skills transfer for quick repair and operations.
- 1.3.3 Handover newly installed SCADA system with relevant O & M's for ELIDZ take over and integrate the ELIDZ directly via an independent service level agreement with the Adriot software service provider for backup support for the lifecycle of the system.

1.4 Team and Organizational Capacity

- 1.4.1. Indicate the experience of the company, partners, or co-developers on Adriot system implementation. The information should have the clear description of similar project undertaken, year, and contact person details, name of the project, period and the project amount.

NB: For evaluation purposes, the service providers shall list ONLY those projects which involved the installation Adriot system implementation.

- 1.4.2. Provide a clear indication of the contactable references in similar projects which are not longer than 5 years.
- 1.4.3. Indicate also the experience of all the key people and/or partners in the project.
- 1.4.4. Provide a detailed description of all members of the proposed team. (Reference must be made to the qualifications, knowledge, skills, expertise, and experience of the members)
- 1.4.5. The service provider should demonstrate the ability to manage large scale programs and projects and possess skills and competencies in project evaluation and selection. Specific experience with offset projects and proof of credibility showing a proven history of large scale procurement and sales of offsets is essential.

1.5 Resource Management

- 1.5.1 The activities each member to be involved in may be indicated in the project program.
- 1.5.2 The estimated time the member will be involved in the relevant activities must also be indicated on the project program.

1.6 Project Budget

- 1.6.1. The service provider shall clearly outline the total cost of the project in an itemized format. A high-level bill of quantities illustrating this costing breakdown minimum requirements is shown under section 1.2.2 of volume B. The bidder is encouraged to include more detail in the priced proposal submitted.

The Service provider is to clearly show the procurement costs for all hardware and software with licenses coupled with his proposed markup fee on the hard and software installed. In addition, the service provider is to provide a lump sum integration fee for the duration of the project until it is handed over.
