

EXPRESSION OF INTEREST (EOI)

HEMP AND CANNABIS BENEFICIATION PROJECT THROUGH BIOTECHNOLOGY

The **East London Industrial Development Zone SOC Ltd** is the operator of the East London Industrial Development Zone (ELIDZ), an entity which exists to help manufacturers to become globally competitive through the development and efficient management of a modern, purpose-built industrial location, which offers investing industries a streamlined business environment enhanced by a range of supporting services. The zone is already operational and currently houses a number of manufacturers that supply products for the local and international markets.

The ELIDZ's mandate is to contribute towards the development of a strong regional industrial base where local industries have improved global competitiveness and there is broadened and inclusive participation of communities in economy. ELIDZ, through the Science and Technology Park (STP), in partnership with the Department of Science, Technology and Innovation (DST&I), has established the **Beneficiation of Hemp and Cannabis through the Biotechnology Programme**. The programme aims to support enterprises located within the Eastern Cape Province that:

- Develop and optimise processes for converting hemp and cannabis biomass into biofuels, including bioethanol, biodiesel, and biogas.
- Produce high-value biomaterials from hemp fibres and hurds, such as bio-composites, bioplastics, and textiles.

To be eligible for support, enterprises must be able to demonstrate that they have already developed a product prototype and require additional assistance to advance the product to pilot-scale, demonstration scale and commercial-scale development.

SCOPE OF WORK

The ELIDZ is seeking suitably qualified enterprises and innovators to respond to this Expression of Interest (EOI), for the **Beneficiation of Hemp and Cannabis through Biotechnology within the ELIDZ Science & Technology Park**.
